Material Safety Data Sheet

A-9002-001 – Antibody-Oligonucleotide All In One Conjugation Kit

Date Update: 10/08/2012

I. Product and Company Identification

Product Name/Description: S-HyNic

Supplier: Solulink Inc
9853 Pacific Heights Blvd, Ste H.  
San Diego, CA 92121

Manufacturer: Solulink Inc
9853 Pacific Heights Blvd, Ste H  
San Diego, CA 92121

Product Number: # A-9202-001-01
Synonym: S-HyNic (succinimidyl 6-hydrazinonicotinate acetone hydrazone), HyNic

For Product Information/Emergency Phone Number:

Emergency Telephone ChemTrec:
1-800-424-9300 (North America)  
+1-703-527-3887 (International)
Solulink-858.625.0670

II. Chemical Composition

Component Name: S-HyNic
Molecular formula: C₁₃H₁₄N₄O₄
Molecular weight: M.W. 290.2

III. Hazards Identification

OSHA/HSC Status: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.

Emergency Overview and Health Hazards:

NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.
A. Emergency Overview:

**Information Pertaining To Particular Dangers for Man and Environment:** This reagent is not considered hazardous when recommend instructions are followed. No known significant effects or critical hazards. Avoid prolonged contact with eyes, skin and clothing.

**Physical Appearance:** Off-white dry residue that is slightly yellowish when resuspended in an aqueous solution.

B. Potential Health Effects:

- **Acute Eye:** Unknown. Avoid contact or exposure to eyes.
- **Acute Skin:** Unknown. Avoid contact or exposure to skin.
- **Acute Inhalation:** Unknown. Avoid contact or exposure to skin.
- **Acute ingestion:** Unknown. Avoid ingestion.

IV. First Aid Measures

First Aid Measures for Accidental Exposure:

- **Eye Exposure:** In case of contact with eyes, immediately flush eyes with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating eye lids.
- **Skin Exposure:** In case of skin contact, wash affected areas with soap and water and flush the area with copious amounts of water. Remove contaminated clothing.
- **Inhalation Exposure:** In inhaled, move to fresh air. If not breathing, administer artificial respiration. If breathing is difficult, give oxygen or artificial respiration by qualified personnel.
- **Ingestion Exposure:** If swallowed, rinse mouth out with water provided person is conscious. Never give fluids or induce vomiting if the victim is unconscious or having convulsions.

V. Fire Fighting Measures

**Fire Hazard Data:**

- **Fire:** Materials contained in this product are not considered to be a fire hazard.
- **Auto-ignition:** Unknown
- **Flash Point:** Unknown
- **Flammability Limits (vol/vol%):** Unknown
- **Lower:** Unknown
- **Upper:** Unknown

**Extinguishing Media:** Use extinguishing media appropriate for surrounding fire.
Material Safety Data Sheet

Special Fire Fighting Procedures: Use extinguishing media appropriate for surrounding fire such as water spray, carbon dioxide, dry powder. Wear full protective clothing and NIOSH-approved self-contained breathing apparatus. Avoid inhalation of material or combustion by-products.

Unusual Fire and Explosion Hazards: None

VI. Accidental Release Measures

Cleanup and Disposal of Spill:

Use lab personal protective equipment such as gloves, lab coat, goggles and self-contained breathing apparatus. Wipe spills with absorbent wipes and discard any product, residue, disposable container or liner in full compliance with national or international regulations. Avoid raising dust. Ventilate area and wash spill site after material pickup is complete.

VII. Handling and Storage

Handling/Storage:

Do not breathe dust. Do not get into eyes, skin or clothing. Avoid prolonged or repeated exposure. Handle wearing gloves. Store material dry and refrigerated and keep container tightly closed.

VIII. Exposure Controls / Personal Protection

Exposure Guidelines:

<table>
<thead>
<tr>
<th>Ingredient Name</th>
<th>ACGIH</th>
<th>NIOSH</th>
<th>OSHA-PELs</th>
</tr>
</thead>
<tbody>
<tr>
<td>S-HyNic</td>
<td>No occupational limits established</td>
<td>No occupational limits established</td>
<td>No occupational limits established</td>
</tr>
</tbody>
</table>

Engineering Controls:
Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the MSDS. General room ventilation is satisfactory under anticipated use conditions.

Respiratory Protection:
Not required under anticipated use conditions.

Eye / Face Protection:
Wear appropriate safety glasses with side shields or chemical goggles as described by OSHA’s eye and face protection regulations in 29CFR 1910.133 or European Standard EN166.

Skin Protection:
Wear chemical resistant gloves (such as latex or neoprene) and protective clothing to prevent skin contact.
Material Safety Data Sheet

IX. Physical and Chemical Properties

Component: S-HyNic  
Physical Appearance: Slight yellowish-white residue  
Percent Purity: >90%  
Boiling Point: Not available  
Melting Point: Not available  
Specific gravity: Not available  
Freezing Point: Not Available  
Vapor pressure: Not available  
Vapor density: Not available  
Solubility: soluble in DMF and DMSO solvents  
Evaporation rate: Not available

X. Stability and Reactivity

Chemical Stability: This compound is considered stable.  
Conditions to Avoid: Susceptible to aqueous hydrolysis, avoid exposure to aqueous solutions before use.  
Materials/Chemicals to Be Avoided: Aromatic hydrazines decompose on exposure to oxidizing agents and metals  
Hazardous Decomposition Products: Carbon monoxide, carbon dioxide in case of fire. Under normal conditions of storage and use, hazardous decomposition products should not be produced.  
Hazardous Polymerization: Under normal conditions of storage and use, polymerization products should not be produced.

XI. Toxicological Information

United States

Acute toxicity/Conclusion/Summary: To the best of our knowledge, the toxicological properties of this product have not been thoroughly investigated.  
Chronic toxicity/Conclusion/Summary: Not available.  
Carcinogenicity/Conclusion/Summary: Not available.  
Mutagenicity/Conclusion/Summary: Not available.  
Teratogenicity/Conclusion/Summary: Not available.  
Reproductive toxicity/Summary: Not available

Europe

Chronic effects: No known significant effects or critical hazards.  
Carcinogenicity: No known significant effects or critical hazards.  
Mutagenicity: No known significant effects or critical hazards.  
Teratogenicity: No known significant effects or critical hazards.  
Developmental effects: No known significant effects or critical hazards.  
Fertility effects: No known significant effects or critical hazards.

XII. Ecological Information
Material Safety Data Sheet

**Environmental effects:** No known significant effects or critical hazards.

**Aquatic ecotoxicity/Conclusion/Summary:** Not available.

**Other adverse effects:** No known significant effects or critical hazards.

---

### XIII. Disposal Considerations

**Waste Disposal:** The generation of waste should be avoided or minimized wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.

---

### XIV. Transportation Information

**DOT**

- **Proper Shipping Name:** Not regulated
- **UN #:** not regulated
- **Hazard Class:** not regulated
- **Packaging Group:** Not regulated
- **Label Statement:** Not regulated

**IATA**

- **Proper Shipping Name:** Not regulated
- **IATA UN Number:** Not regulated
- **Hazard Class:** Not regulated
- **Packaging Group:** Not regulated

---

### XV. Regulatory Information

**United States**

**HCS Classification:** Not regulated.

**U.S. Federal regulations:**

United States inventory (TSCA 8b): All components are listed or exempted.
SARA 302/304/311/312 extremely hazardous substances: No products were found.
SARA 302/304 emergency planning and notification: No products were found.

Alberta Designated Substances: None of the components are listed.
Ontario Designated Substances: None of the components are listed.
Quebec Designated Substances: None of the components are listed.
CEPA Toxic substances: None of the components are listed

Canadian Inventory: All components are listed or exempted

EU Regulations
EU Classification: This product is not classified according to EU legislation.

XVI. Other Information

Key Legend Information:

- N/A – Not Applicable
- ND – Not Determined
- ACGIH – American Conference of Governmental Industrial Hygienists
- OSHA – Occupational Safety and Health Administration
- TLV – Threshold Limit Value
- PEL – Permissible Exposure Limit
- TWA – Time Weighted Average
- STEL – Short Term Exposure Limit
- NTP – National Toxicology Program
- IARC – International Agency for Research on Cancer

II. Chemical Composition

Product Number: # A-9202-001-03

Component Name: Oligo resuspension solution
Physical appearance: Clear, colorless aqueous liquid

Oligo resuspension solution is supplied as a clear aqueous solution containing 0.5 mM EDTA (metal chelator) at pH 8.0.

III. Hazards Identification

OSHA/HSC Status: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200) at concentrations <1%, this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.

Emergency Overview and Health Hazards:

NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.

HMIS Rating (Scale 0-4): Health = 1 Fire = 0 Reactivity = 0

A. Emergency Overview:

Information Pertaining To Particular Dangers for Man and Environment: This reagent is not considered hazardous when recommend instructions are used. No known significant effects or critical hazards. Avoid prolonged contact with eyes, skin and clothing. Always use appropriate personal protective equipment.

Physical Appearance: Clear, colorless aqueous liquid

B. Potential Health Effects:

Acute Eye:
Direct contact with alkaline solutions can cause blindness.

Acute Skin:
Direct contact may cause skin irritation with redness.

Acute Inhalation:
Acute and chronic exposure may cause irritation of the mucous membranes. Symptoms may include tightness and difficulty breathing.

Acute ingestion:
Acute exposure may cause gastrointestinal irritation to the mouth and stomach.

IV. First Aid Measures

First Aid Measures for Accidental Exposure:

Eye Exposure:
Material Safety Data Sheet

In case of contact with eyes, immediately flush eyes with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating eye lids.

**Skin Exposure:**
In case of skin contact, wash affected areas with soap and water and flush the area with copious amounts of water. Remove contaminated clothing.

**Inhalation Exposure:**
In inhaled, move to fresh air. If not breathing, administer artificial respiration. If breathing is difficult, give oxygen or artificial respiration by qualified personnel.

**Ingestion Exposure:**
If swallowed, rinse mouth out with water provided person is conscious. Never give fluids or induce vomiting if the victim is unconscious or having convulsions.

---

### V. Fire Fighting Measures

**Fire Hazard Data:**
- **Fire:** This product is not considered to be a fire hazard.
- **Auto-ignition:** Unknown
- **Flash Point:** Unknown
- **Flammability Limits (vol/vol%):** Unknown
  - **Lower:** Unknown
  - **Upper:** Unknown

**Extinguishing Media:** Use extinguishing media appropriate for surrounding fire

**Special Fire Fighting Procedures:** Use extinguishing media appropriate for surrounding fire such as water spray, carbon dioxide, dry powder. Wear full protective clothing and NIOSH-approved self-contained breathing apparatus. Avoid inhalation of material or combustion by-products.

**Unusual Fire and Explosion Hazards:** None

---

### VI. Accidental Release Measures

**Cleanup and Disposal of Spill:**
Use lab personal protective equipment such as gloves, lab coat, goggles and self-contained breathing apparatus. Wipe spills with absorbent wipes and discard any product, residue, disposable container or liner in full compliance with national or international regulations. Avoid raising dust. Ventilate area and wash spill site after material pickup is complete.

---

### VII. Handling and Storage

**Handling/Storage:**
Do not get into eyes, skin or clothing. Handle wearing gloves. Store material refrigerated. Keep container tightly sealed at 2-8°C.

Engineering Controls:
Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the MSDS. General room ventilation is satisfactory under anticipated use conditions.

Respiratory Protection:
Not required under anticipated use conditions.

Eye / Face Protection:
Wear appropriate safety glasses with side shields or chemical goggles as described by OSHA’s eye and face protection regulations in 29CFR 1910.133 or European Standard EN166.

Skin Protection:
Wear chemical resistant gloves (such as latex or neoprene) and protective clothing to prevent skin contact.

IX. Physical and Chemical Properties

Component: Oligo resuspension solution
Physical Appearance: Clear colorless liquid
Percent Purity: 0.018%
Boiling Point: Not available
Melting Point: Not available
Specific gravity: Not available
Freezing Point: Not Available
Vapor pressure: Not available
Vapor density: Not available
Solubility: aqueous solutions
Evaporation rate: Not available
pH: 7.0

X. Stability and Reactivity

Chemical Stability: This compound is considered stable.
Conditions to Avoid: Avoid strong oxidizing agents.
Hazardous Decomposition Products: Carbon monoxide, carbon dioxide, nitrogen oxides in case of fire. Under normal conditions of storage and use, hazardous decomposition products should not be produced.
Hazardous Polymerization: Under normal conditions of storage and use, polymerization products should not be produced.

XI. Toxicological Information

United States
Material Safety Data Sheet

Acute toxicity/Conclusion/Summary: To the best of our knowledge, the toxicological properties of this product have not been thoroughly investigated.
Chronic toxicity/Conclusion/Summary: Not available.
Carcinogenicity/Conclusion/Summary: Not available.
Mutagenicity/Conclusion/Summary: Mutagen: Hamster 200 gm/l Cell type: Lung, cytogenetic analysis.
Teratogenicity/Conclusion/Summary: Not available.
Reproductive toxicity/Summary: Not available

Europe

Chronic effects: No known significant effects or critical hazards.
Carcinogenicity: No known significant effects or critical hazards.
Mutagenicity: Mutagen: Hamster 200 gm/l Cell type: Lung, cytogenetic analysis.
Teratogenicity: No known significant effects or critical hazards.
Developmental effects: No known significant effects or critical hazards.
Fertility effects: No known significant effects or critical hazards.

XII. Ecological Information

Environmental effects: No known significant effects or critical hazards.
Aquatic ecotoxicity/Conclusion/Summary: 96 Hr LC50 bluegill: 159 mg/L (Static)
Other adverse effects: No known significant effects or critical hazards.

XIII. Disposal Considerations

Waste Disposal: The generation of waste should be avoided or minimized wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Ethylenediaminetetraacetic acid is designated as a hazardous substance under section 311(b)(2)(A) of the Federal Water Pollution Control Act. These regulations apply to discharges of this substance.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.

## X. Stability and Reactivity

- **Chemical Stability**: This compound is considered stable.
- **Conditions to Avoid**: None known
- **Hazardous Decomposition Products**: Phosphorus oxides may form when heated to decomposition
  Under normal conditions of storage and use, hazardous decomposition products should not be produced.
- **Hazardous Polymerization**: Under normal conditions of storage and use, polymerization products should not be produced.

## XI. Toxicological Information

### United States

- **Acute toxicity/Conclusion/Summary**: To the best of our knowledge, the toxicological properties of this product have not been thoroughly investigated.
- **Chronic toxicity/Conclusion/Summary**: Not available.
- **Carcinogenicity/Conclusion/Summary**: Not available.
- **Mutagenicity/Conclusion/Summary**: Not available.
- **Teratogenicity/Conclusion/Summary**: Not available.
- **Reproductive toxicity/Summary**: Not available

### Europe

- **Chronic effects**: No known significant effects or critical hazards.
- **Carcinogenicity**: No known significant effects or critical hazards.
- **Mutagenicity**: No known significant effects or critical hazards.
- **Teratogenicity**: No known significant effects or critical hazards.
- **Developmental effects**: No known significant effects or critical hazards.
- **Fertility effects**: No known significant effects or critical hazards.

## XII. Ecological Information
Material Safety Data Sheet

**Environmental effects:** No known significant effects or critical hazards. Leaches through the soil or sediment at a moderate rate. Accumulates very little in bodies of living organisms.

**Aquatic ecotoxicity/Conclusion/Summary:** None known.

**Other adverse effects:** No known significant effects or critical hazards.

### XIII. Disposal Considerations

**Waste Disposal:** The generation of waste should be avoided or minimized wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. These regulations apply to discharges of this substance.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.

III. Product and Company Identification

Product Name/Description: Bead Wash Buffer
Supplier: Solulink Inc
9853 Pacific Heights Blvd, Ste H.
Manufacturer: Solulink Inc
9853 Pacific Heights Blvd, Ste H
II. Chemical Composition

Component Name: Bead Wash Buffer  
Chemical Name: N/A  
Catalog Number: A-9201-001-12  
Molecular Formula: N/A  
Molecular Weight: N/A

Physical appearance: Clear, colorless aqueous liquid

Bead Wash Buffer is supplied as 25 mM sodium phosphate, 300 mM sodium chloride, 0.05% Tween-20 in water, pH 7.5.

III. Hazards Identification

OSHA/HSC Status: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200) this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.

OSHA Hazard: Irritant

NFPA Ratings (Scale 0-4): Health = 1  Fire = 1  Reactivity = 0

NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN
THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.

A. Emergency Overview:

**Information Pertaining To Particular Dangers for Man and Environment:** This reagent is not considered hazardous when recommend instructions are used. No known significant effects or critical hazards. Avoid prolonged contact with eyes, skin and clothing. Always use appropriate personal protective equipment.

**Physical Appearance:** Clear, colorless aqueous liquid

B. Potential Health Effects:

- **Acute Eye:**
  Direct contact may cause irritation with redness

- **Acute Skin:**
  Direct contact may cause skin irritation with redness.

- **Acute Inhalation:**
  Acute and chronic exposure may cause irritation of the mucous membranes. Symptoms may include tightness and difficulty breathing.

- **Acute Ingestion:**
  Acute exposure may cause gastrointestinal irritation to the mouth and stomach.

---

### IV. First Aid Measures

**First Aid Measures for Accidental Exposure:**

- **Eye Exposure:**
  In case of contact with eyes, immediately flush eyes with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating eye lids.

- **Skin Exposure:**
  In case of skin contact, wash affected areas with soap and water and flush the area with copious amounts of water. Remove contaminated clothing.

- **Inhalation Exposure:**
  In inhaled, move to fresh air. If not breathing, administer artificial respiration. If breathing is difficult, give oxygen or artificial respiration by qualified personnel.

- **Ingestion Exposure:**
  If swallowed, rinse mouth out with water provided person is conscious. Never give fluids or induce vomiting if the victim is unconscious or having convulsions.

---

### V. Fire Fighting Measures

**Fire Hazard Data:**

- **Fire:** This product is not considered to be a fire hazard.
- **Auto-ignition:** Unknown
Material Safety Data Sheet

Flash Point: Unknown
Flammability Limits (vol/vol%): Unknown
Lower: Unknown
Upper: Unknown

Extinguishing Media: Use extinguishing media appropriate for surrounding fire

Special Fire Fighting Procedures: Use extinguishing media appropriate for surrounding fire such as water spray, carbon dioxide, dry powder. Wear full protective clothing and NIOSH-approved self-contained breathing apparatus. Avoid inhalation of material or combustion by-products.

Unusual Fire and Explosion Hazards: None

VI. Accidental Release Measures

Cleanup and Disposal of Spill:

Use lab personal protective equipment such as gloves, lab coat, goggles and self-contained breathing apparatus. Wipe spills with absorbent wipes and discard any product, residue, disposable container or liner in full compliance with national or international regulations. Avoid raising dust. Ventilate area and wash spill site after material pickup is complete.

VII. Handling and Storage

Handling/Storage:

Do not get into eyes, skin or clothing. Handle wearing gloves. Store material refrigerated and in the dark. Keep container tightly sealed at 2-8°C.

VIII. Exposure Controls / Personal Protection

Exposure Guidelines:

<table>

</tr>
</tbody>
</table>

Engineering Controls: Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the MSDS. General room ventilation is satisfactory under anticipated use conditions.

Respiratory Protection: Not required under anticipated use conditions.

Eye / Face Protection:
Material Safety Data Sheet

Wear appropriate safety glasses with side shields or chemical goggles as described by OSHA’s eye and face protection regulations in 29CFR 1910.133 or European Standard EN166.

Skin Protection:
Wear chemical resistant gloves (such as latex or neoprene) and protective clothing to prevent skin contact.

IX. Physical and Chemical Properties

Component: Conjugate Quench Reagent
Physical Appearance: Clear colorless liquid
Percent Purity: 1%
Boiling Point: Not available
Melting Point: Not available
Specific gravity: Not available
Freezing Point: Not Available
Vapor pressure: Not available
Vapor density: Not available
Solubility: aqueous solutions
Evaporation rate: Not available
pH: 6.0

X. Stability and Reactivity

Chemical Stability: This compound is considered stable under recommended storage and use conditions.
Materials / Chemicals to Be Avoided: Aluminium, bases, iron, oxidants and phenol causing fire.
Hazardous Decomposition Products: Carbon monoxide, carbon dioxide, nitrogen oxides (NOx)
Hazardous Polymerization: Unknown

XI. Toxicological Information

United States

Acute toxicity/Conclusion/Summary: To the best of our knowledge, the toxicological properties of this product have not been thoroughly investigated.
MES: No LD50/LC50 information found relating to normal routes of occupational exposure.
2-sulfobenzaldehyde: toxicological properties of this substance have not been fully investigated.

Chronic toxicity/Conclusion/Summary: Not available.
Carcinogenicity/Conclusion/Summary: 2-formylbenzensulfonic acid, sodium salt,- Not listed as a carcinogen by ACGIH, IARC, NTP, or CA Prop 65.

Mutagenicity/Conclusion/Summary: Not available.
Teratogenicity/Conclusion/Summary: Not available.
Reproductive toxicity/Summary: Not available
XII. Ecological Information

**Environmental effects:** No data available.

**Aquatic ecotoxicity/Conclusion/Summary:** No data available.

**Other adverse effects:** No data available.

XIII. Disposal Considerations

**Waste Disposal:** The generation of waste should be avoided or minimized wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Ethylenediaminetetraacetic acid is designated as a hazardous substance under section 311(b)(2)(A) of the Federal Water Pollution Control Act. These regulations apply to discharges of this substance.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.

XIV. Transportation Information

**DOT**

**Proper Shipping Name:** Not regulated

**UN #:** not regulated

**Hazard Class:** not regulated

**Packaging Group:** Not regulated

**Label Statement:** Not regulated

**IATA**

**Proper Shipping Name:** Not regulated

**IATA UN Number:** Not regulated

III. Hazards Identification

OSHA/HSC Status: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.

The preparation is not classified as dangerous according to Directive 1999/45/EC and its amendments.

Emergency Overview and Health Hazards:

NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.

HMIS Rating (Scale 0-4): Health = 1    Fire = 1    Reactivity = 0

A. Emergency Overview:

Information Pertaining To Particular Dangers for Man and Environment: This reagent is not considered hazardous when recommend instructions are used. No known significant effects or critical hazards. Avoid prolonged contact with eyes, skin and clothing. Always use appropriate personal protective equipment.

Physical Appearance: Clear, colorless aqueous liquid
B. Potential Health Effects:

**Acute Eye:**
Direct contact may cause irritation with redness

**Acute Skin:**
Direct contact may cause skin irritation with redness.

**Acute Inhalation:**
Acute and chronic exposure may cause irritation of the mucous membranes. Symptoms may include tightness and difficulty breathing.

**Acute Ingestion:**
Acute exposure may cause gastrointestinal irritation to the mouth and stomach.

IV. First Aid Measures

First Aid Measures for Accidental Exposure:

**Eye Exposure:**
In case of contact with eyes, immediately flush eyes with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating eye lids.

**Skin Exposure:**
In case of skin contact, wash affected areas with soap and water and flush the area with copious amounts of water. Remove contaminated clothing.

**Inhalation Exposure:**
In inhaled, move to fresh air. If not breathing, administer artificial respiration. If breathing is difficult, give oxygen or artificial respiration by qualified personnel.

**Ingestion Exposure:**
If swallowed, rinse mouth out with water provided person is conscious. Never give fluids or induce vomiting if the victim is unconscious or having convulsions.

XV. Regulatory Information

**United States**
Material Safety Data Sheet

HCS Classification: Not regulated.

U.S. Federal regulations:
United States inventory (TSCA 8b): All components are listed or exempted.
SARA 302/304/311/312 extremely hazardous substances: No products were found.
SARA 302/304 emergency planning and notification: No products were found.
SARA 302/304/311/312 hazardous chemicals: No products were found.
SARA 311/312 MSDS distribution - chemical inventory - hazard identification: No products were found.
Clean Water Act (CWA) 307: No products were found.
Clean Water Act (CWA) 311: This product is listed.
Clean Air Act (CAA) 112 accidental release prevention: No products were found.
Clean Air Act (CAA) 112 regulated flammable substances: No products were found.
Clean Air Act (CAA) 112 regulated toxic substances: No products were found.

Canada
WHMIS (Canada): Not controlled under WHMIS (Canada).

Canadian Inventory: All components are listed or exempted

EU Regulations
EC Classification: X_i -irritant

Risk Phrases:
R36 irritating to eyes
R37 irritating to respiratory system
R38 irritating to skin

International Regulations
International Lists:
Australia inventory (AICS): All components are listed or exempted.
China inventory (IECSC): All components are listed or exempted.
Korea inventory (KECI): All components are listed or exempted.
Philippines inventory (PICCS): All components are listed or exempted.
Japan inventory (ENCS): All components are listed or exempted.

XVI. Other Information

Key Legend Information:

N/A – Not Applicable
ND – Not Determined
ACGIH – American Conference of Governmental Industrial Hygienists
OSHA – Occupational Safety and Health Administration
TLV – Threshold Limit Value
PEL – Permissible Exposure Limit
TWA – Time Weighted Average
V. Product and Company Identification

Product Name/Description: Spin Column (Yellow Cap)

Supplier: Solulink Inc
9853 Pacific Heights Blvd, Ste H.
San Diego, CA 92121
858.625.0670

Manufacturer: Solulink Inc
9853 Pacific Heights Blvd, Ste H
San Diego, CA 92121
858.625.0670

Product Number: # A-9202-001-09

Synonyms: For aniline component
(RTECS Number: BW6650000)

Aminophen, Aniline (Italian, Polish), Anilin (Czech), Benzamine, Arylamine, Aromatic amine
Phenylamine, Benzenamine, Benzidam

For Product Information/Emergency Phone Number:

Emergency Telephone ChemTrec:
1-800-424-9300 (North America)
+1-703-527-3887 (International)
Solulink-858.625.0670

II. Chemical Composition

Component Name: Spin Column (Yellow Cap)
Physical appearance: liquid slurry gel in a sealed plastic enclosure

Chemical composition:

Spin Column (Yellow Cap) contains a 0.5 mL of a polymeric chromatography resin (slurry) equilibrated in sodium phosphate/sodium chloride solution pH 6.0 containing less than 0.3% aniline.

III. Hazards Identification

OSHA/HSC Status: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200) at concentrations <1%, this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.

Major Health Hazards:

Under normal use conditions, product as manufactured is not anticipated to cause major health hazards. May cause skin, eye and respiratory irritation from accidental exposure.

NFPA Ratings (Scale 0-4): Health = 2 Fire = 0 Reactivity = 1

Emergency Overview and Health Hazards:

NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.

NFPA Ratings (Scale 0-4): Health = 2 Fire = 0 Reactivity = 1

A. Emergency Overview:

Information Pertaining To Particular Dangers for Man and Environment: This reagent is not considered hazardous when recommend instructions are used. No known significant effects or critical hazards. Avoid prolonged contact with eyes, skin and clothing. Always use appropriate personal protective equipment.

Physical Appearance: Clear, colorless aqueous liquid

ROUTES OF ENTRY: Inhalation, ingestion and skin absorption

B. Potential Health Effects:

Acute Eye: Direct contact may cause irritation with redness
Acute Skin: May cause moderate skin irritation.
Acute Ingestion: Not considered a likely route of exposure under normal product use conditions. Harmful if swallowed. Causes gastrointestinal irritation with nausea, vomiting and diarrhea. May cause effects similar to those of acute inhalation. Acute Inhalation: Effects may be delayed. May cause respiratory tract irritation.
Chronic: May cause liver and kidney damage. May cause fetal effects. Repeated exposure may cause sensitization dermatitis. Chronic exposure may cause hemolysis of the red blood cells followed by stimulation of the bone marrow. Laboratory experiments have resulted in mutagenic effects. May cause cyanosis - a blue-gray coloring of the skin

IV. First Aid Measures
First Aid Measures for Accidental Exposure:

**Eye Exposure:**
In case of contact with eyes, immediately flush eyes with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating eye lids.

**Skin Exposure:**
In case of skin contact, wash affected areas with soap and water and flush the area with copious amounts of water. Remove contaminated clothing.

**Inhalation Exposure:**
In inhaled, move to fresh air. If not breathing, administer artificial respiration. If breathing is difficult, give oxygen or artificial respiration by qualified personnel.

**Ingestion Exposure:**
If swallowed, rinse mouth out with water provided person is conscious. Never give fluids or induce vomiting if the victim is unconscious or having convulsions. SEEK IMMEDIATE medical attention.

**Notes to Physician:** Absorption of this product into the body may cause cyanosis (bluish discoloration of skin due to deficient oxygenation of the blood). Moderate degrees of cyanosis need to be treated only by supportive measures: bed rest and oxygen inhalation. Cleansing of the entire contaminated area of the body is of utmost importance. Do not administer alcohol in any form. Individuals with liver or kidney disorders, impaired cardiovascular status, or a history of alcoholism may be more susceptible to the effects of this product. Effects may be delayed. If cyanosis is severe, intravenous injection of Methylene blue, 1mg/kg of body weight may be of value.

**Antidote:** Methylene blue, alone or in combination with oxygen is indicated as a treatment in nitrite induced methemoglobinemia.

V. Fire Fighting Measures

Fire Hazard Data:

**Fire:** This product is not considered to be a fire hazard when used as directed.

**Auto-ignition:** Unknown

**Flash Point:** Unknown

**Flammability Limits (vol/vol%):** Unknown

**Lower:** Unknown

**Upper:** Unknown

**Extinguishing Media:** Use extinguishing media appropriate for surrounding fire

**Special Fire Fighting Procedures:** Use extinguishing media appropriate for surrounding fire such as water spray, carbon dioxide, dry powder. Wear full protective clothing and NIOSH-approved self-contained breathing apparatus. Avoid inhalation of material or combustion by-products.

**Unusual Fire and Explosion Hazards:** In a fire or if heated, a pressure increase will occur and sealed plastic container may burst.
VI. Accidental Release Measures

Cleanup and Disposal of Spill:

Use lab personal protective equipment such as gloves, lab coat, goggles and self-contained breathing apparatus. Wipe spills with absorbent wipes and discard any product, residue, disposable container or liner in full compliance with national or international regulations. Avoid raising dust. Ventilate area and wash spill site after material pickup is complete.

VII. Handling and Storage

Handling/Storage:

Do not get into eyes, skin or clothing. Handle wearing gloves. Store material refrigerated. Keep container tightly sealed at 2-8°C.

VIII. Exposure Controls / Personal Protection

Exposure Guidelines:

Engineering Controls:
Material Safety Data Sheet

Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the MSDS. General room ventilation is satisfactory under anticipated use conditions.

**Respiratory Protection:**
Not required under anticipated use conditions.

**Eye / Face Protection:**
Wear appropriate safety glasses with side shields or chemical goggles as described by OSHA’s eye and face protection regulations in 29CFR 1910.133 or European Standard EN166.

**Skin Protection:**
Wear chemical resistant gloves (such as latex or neoprene) and protective clothing to prevent skin contact.

### IX. Physical and Chemical Properties

- **Component:** Spin Column (Yellow Cap)
- **Physical Appearance:** White gel slurry in a sealed plastic housing
- **Percent Purity:** Not available
- **Boiling Point:** Not available
- **Melting Point:** Not available
- **Specific gravity:** Not available
- **Freezing Point:** Not available
- **Vapor pressure:** Not available
- **Vapor density:** Not available
- **Solubility:** Easily dispersible in aqueous solutions
- **Evaporation rate:** Not available
- **pH:** 6.0

### X. Stability and Reactivity

- **Chemical Stability:** This compound is considered stable.
- **Conditions to Avoid:** Temperatures <0°C or > 50°C
- **Materials / Chemicals to Be Avoided:** Reactive with strong oxidizing agents, metal, acids, alkali
- **Hazardous Decomposition Products:** Phosphorus oxides may form when heated to decomposition

### XI. Toxicological Information

- **United States**

Information for Aniline

- **Route of exposure**

- **Skin absorption:** toxic if absorbed through skin. Readily absorbed through skin.
- **Eye contact:** causes severe eye irritation.
- **Ingestion:** toxic if swallowed
- **Inhalation:** Material is irritating to mucous membranes and upper respiratory tract. Toxic if inhaled.
- **Sensitization;**
Material Safety Data Sheet

Skin: May cause allergic skin reaction.

**Target Organs:**
Blood, bladder, kidneys, central nervous system.

**Signs and symptoms of exposure:**
Absorption into body leads to methemoglobin which in sufficient concentration causes cyanosis. Onset may be delayed 2-4 hours.

**Carcinogenicity:**
- ACGIH: Classified A3 (proven for animal)
- IARC: (not classifiable for human)
- OSHA: Not available

**Mutagenic Effects:**
- Mutagenic for mammalian somatic cells. Species human, dose 300 umol.L, cell type lymphocyte, mutation test: sister chromatid exchange.
- Mutagenic for bacteria and or yeast.

**Reproductive Effects:**
- Chronic exposure to aniline (6-13 days, pregnant) poses reproductive hazard in mouse at 4.48 g/kg (oral)

**Acute Oral Toxicity:**
- Oral LD50: Acute: 250 mg/Kg (rat), 464 mg/Kg (mouse);

**Acute Dermal Toxicity:**
- Dermal (LD50): Acute: 820 mg/Kg (rabbit), 1400 mg/Kg (rat)

---

**XII. Ecological Information**

**Environmental effects:** Not available

**Aquatic ecotoxicity/Conclusion/Summary:** None known.

**Other adverse effects:** No known significant effects or critical hazards.

---

**XIII. Disposal Considerations**

**Waste Disposal:** The generation of waste should be avoided or minimized wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. These regulations apply to discharges of this substance.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

---

**XIV. Transportation Information**

**DOT**
- **Proper Shipping Name:** Aniline
- **UN #:** 1547

III. Hazards Identification

**OSHA/HSC Status:** While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.

The preparation is not classified as dangerous according to Directive 1999/45/EC and its amendments.

**Major Health Hazards:** Respiratory tract irritation. Skin and eye irritation.

**Physical Hazards:** None

In accordance with 29 CFR 1910.1200 reagents this product contains less than 1% hazardous chemicals and less than 0.1% carcinogenic chemicals.

**Emergency Overview and Health Hazards:**

NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.
Material Safety Data Sheet

HMIS Rating (Scale 0-4): Health = 1 Fire = 1 Reactivity = 0

A. Emergency Overview:

Information Pertaining To Particular Dangers for Man and Environment: This reagent is not considered hazardous when recommend instructions are used. No known significant effects or critical hazards. Avoid prolonged contact with eyes, skin and clothing. Always use appropriate personal protective equipment.

Physical Appearance: Clear, colorless aqueous liquid

B. Potential Health Effects:

Acute Eye:
Direct contact may cause irritation with redness

Acute Skin:
Direct contact may cause skin irritation with redness.

Acute Inhalation:
Acute and chronic exposure may cause irritation of the mucous membranes. Symptoms may include tightness and difficulty breathing.

Acute Ingestion:
Acute exposure may cause gastrointestinal irritation to the mouth and stomach.

IV. First Aid Measures

First Aid Measures for Accidental Exposure:

Eye Exposure:
In case of contact with eyes, immediately flush eyes with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating eye lids.

Skin Exposure:
In case of skin contact, wash affected areas with soap and water and flush the area with copious amounts of water. Remove contaminated clothing.

Inhalation Exposure:
In inhaled, move to fresh air. If not breathing, administer artificial respiration. If breathing is difficult, give oxygen or artificial respiration by qualified personnel.

Ingestion Exposure:
If swallowed, rinse mouth out with water provided person is conscious. Never give fluids or induce vomiting if the victim is unconscious or having convulsions.

Engineering Controls:
Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the MSDS. General room ventilation is satisfactory under anticipated use conditions.

Respiratory Protection:
Not required under anticipated use conditions.

Eye / Face Protection:
Wear appropriate safety glasses with side shields or chemical goggles as described by OSHA’s eye and face protection regulations in 29CFR 1910.133 or European Standard EN166.

Skin Protection:
Wear chemical resistant gloves (such as latex or neoprene) and protective clothing to prevent skin contact.

IX. Physical and Chemical Properties

Component: Spin Column (Blue Cap)
Physical Appearance: White gel slurry in a sealed plastic housing
Percent Purity: Not available
Boiling Point: Not available
Melting Point: Not available
Specific gravity: Not available
Freezing Point: Not Available
Vapor pressure: Not available
Vapor density: Not available
Solubility: Easily dispersible in aqueous solutions
Evaporation rate: Not available
pH: 7.2

X. Stability and Reactivity

Chemical Stability: Stable under recommended use conditions. Sodium azide reacts with lead and copper plumbing forming highly explosive metal azides.
Conditions to Avoid: Avoid exposure to lead and copper.
Hazardous Decomposition Products: Phosphorus oxides may form when heated to decomposition Under normal conditions of storage and use, hazardous decomposition products should not be produced.
Hazardous Polymerization: Under normal conditions of storage and use, polymerization products should not be produced.

XI. Toxicological Information

United States
Material Safety Data Sheet

Acute toxicity/Conclusion/Summary: To the best of our knowledge, the toxicological properties of this product have not been thoroughly investigated.
Chronic toxicity/Conclusion/Summary: Not available.
Carcinogenicity/Conclusion/Summary: Not available.
Mutagenicity/Conclusion/Summary: Not available.

Teratogenicity/Conclusion/Summary: Not available.
Reproductive toxicity/Summary: Not available

Europe

Chronic effects: No known significant effects or critical hazards.
Carcinogenicity: No known significant effects or critical hazards.
Mutagenicity: No known significant effects or critical hazards.
Teratogenicity: No known significant effects or critical hazards.
Developmental effects: No known significant effects or critical hazards.
Fertility effects: No known significant effects or critical hazards.

XII. Ecological Information

Environmental effects: No known significant effects or critical hazards. Leaches through the soil or sediment at a moderate rate. Accumulates very little in bodies of living organisms.

Aquatic ecotoxicity/Conclusion/Summary: None known.
Other adverse effects: No known significant effects or critical hazards.

XIII. Disposal Considerations

Waste Disposal: The generation of waste should be avoided or minimized wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. These regulations apply to discharges of this substance.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.

III. Hazards Identification

Major Health Hazards: Warning, harmful if swallowed, inhaled or absorbed through skin. Causes irritation to skin, eyes, and respiratory tract. Toxic to liver. Affects kidneys, cardiovascular system and central nervous system. Causes alcohol intolerance and skin problems.

Physical Hazards: Flammable liquid and vapor

NFPA Rating (Scale 0-4): Health = 2 Fire = 2 Reactivity = 0 Contact rating = 3

Emergency Overview and Health Hazards:

A. Emergency Overview:

OSHA Hazard: Combustible Liquid, Irritant, Teratogen
Target Organs: Kidney, Liver, Blood, Cardiovascular system, Central nervous system
Other hazards which do not result in classification: Rapidly absorbed through skin.

Physical Appearance: Clear colorless liquid

B. Potential Health Effects:

Acute Eye:
Direct contact causes irritation, redness and pain. May cause severe irritation and blurred vision.

Acute Skin:
Causes skin irritation with redness, itching, and pain. Can cause skin problems. Absorption can readily occur through the skin causing symptoms that parallel inhalation.

Acute Inhalation:
Exposure causes irritation to respiratory tract. of the mucous membranes. Symptoms may include coughing, shortness of breath, and difficulty breathing. May cause abdominal pain, loss of
Material Safety Data Sheet

appetite, nausea, weakness, dizziness, headache, constipation, vomiting, diarrhea, increased blood pressure anxiety, and palpitations. A flushing of the face and skin may occur, especially coincident with ingestion of alcoholic beverages

**Acute Ingestion:**
Ingestion causes gastrointestinal irritation. Symptoms parallel inhalation. Fatal dose estimated at 10 grams.

### IV. First Aid Measures

**First Aid Measures for Accidental Exposure:**

**Eye Exposure:**
Immediately flush eyes with copious amounts of water for at least 15 minutes. Lift upper and lower eyelids occasionally. GET MEDICAL ATTENTION. If not breathing, seek medical attention.

**Skin Exposure:**
Immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. GET MEDICAL ATTENTION.

**Inhalation Exposure:**
Move to fresh air. If not breathing, administer artificial respiration. If breathing is difficult, give oxygen or artificial respiration by qualified personnel. GET MEDICAL ATTENTION.

### V. Fire Fighting Measures

**Fire Hazard Data:**

- **Fire:** Material is considered flammable.
- **Autoignition:** 445°C (833°F)
- **Flash Point:** 58°C (136°F)
- **Flammability Limits (vol/vol%):**
  - Lower: 2.2
  - Upper: 15.2

**Extinguishing Media:** Use dry chemical, alcohol foam or carbon dioxide

**Special Fire Fighting Procedures:** In the event of a fire wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece operated in the pressure demand or other positive pressure mode. Water spray may be used to extinguish surrounding fire and cool exposed containers. Water spray will also reduce fume and irritant gas.

### VI. Accidental Release Measures

**Cleanup and Disposal of Spill:**

Use lab personal protective equipment such as gloves, lab coat, goggles and self-contained breathing apparatus. Wipe spills with absorbent wipes and discard any product, residue, disposable container or liner in full compliance with national or international regulations. Avoid raising dust. Ventilate area and wash spill site after material pickup is complete.
VII. Handling and Storage

Handling/Storage:

Do not get into eyes, skin or clothing. Handle wearing gloves. Store material either refrigerated or at room temperature. Keep container tightly sealed at 2-8°C.

VIII. Exposure Controls / Personal Protection

Exposure Guidelines:

DMF or N, N-dimethylformamide

ACGIH (United States, 0/2000). Skin TWA: 10 ppm
OSHA (United States, 0/1989). Skin TWA: 10 ppm
NIOSH (United States, 0/1994). Skin TWA: 10 ppm
OSHA (United States, 0/1989). Skin TWA: 30 mg/m³
ACGIH TLV (United States, 0/1989). Skin TWA: 10 ppm 8 hour(s).
OSHA PEL (United States). Skin TWA: 30 mg/m³ 8 hour(s).
MSHA (United States). Skin TWA: 30 mg/m³

Engineering Controls:
Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the MSDS. General room ventilation is satisfactory under anticipated use conditions.

Respiratory Protection:
Not required under anticipated use conditions.

Eye / Face Protection:
Wear appropriate safety glasses with side shields or chemical goggles as described by OSHA’s eye and face protection regulations in 29CFR 1910.133 or European Standard EN166.

Skin Protection:
Wear chemical resistant gloves (such as latex or neoprene) and protective clothing to prevent skin contact.

IX. Physical and Chemical Properties

Component: DMF
Physical Appearance: Clear colorless liquid
Odor: fishy, pungent
Solubility: completely soluble with water
Percent Purity: 98-100%
% volatiles by volume @ 21°C :100
Boiling Point: 307°F, 253°C
Melting Point: 170-61°C
Specific gravity: 0.949 @ 20°C (68°F)
Freezing Point: Not Available
Evaporation rate (butyl Acetate =1):0.17
Vapor pressure (mmHg): 2.7 @ 20°C
X. Stability and Reactivity

Chemical Stability:
Stable under ordinary conditions of use and storage

Conditions to Avoid:
Heat, flames, ignition sources and incompatibles.

Materials /Incompatibles/Chemicals to Be Avoided:
Bromine, carbon tetrachloride, chromic ahhydride,2,5-dimethylpyrole, phosphorus oxychloride,hexachlorobenzene, magnesium nitrate, hethylene idisocyanate, phosphorus trioxide, triethyl aluminum, organic nitrates, acidic and alkaline materials and other halogentated compounds. Contact with iron or strong oxidizers may cause fires and explosions: may react violently with alkyl aluminums. Methylene disocyanate can polymerize violently on contact with DMF.

Hazardous Decomposition Products:
May form ammonia, carbon dioxide, amines, and nitrogen oxides when heated to decomposition. Above 350 °C DMF begins to degrade with formation of dimethlyamine and carbon monoxide.

Hazardous Polymerization:
Will not occur.

XI. Toxicological Information

United States

Carcinogenicity: NTP: Not listed, IARC: Not listed, ACGIH: Not listed, CA Prop 65: Not listed

Reported non-mutagenic in a number of assays using cultured cells, yeast and bacteria.

Epidemiology: Experimental reproductive effects have been reported
Teratogenicity: No information available
Reproductive effects: Similar compounds have shown reproductive effects.
Neurotoxicity: No information available.

LD50/LC50 for CAS # 68-12-2

Acute Oral Toxicity: LD50 rat, LD50 = 2800 mg/kg
Acute Inhalation Toxicity: rat LC50 = 3421 ppm/1H
Skin toxicity: LD50 rabbit 4.72 g/kg

XII. Ecological Information

Environmental effects:
When released into soil or water this material is expected to readily biodegrade and is not expected to bioaccumulate. When released into the air, this material is expected to degrade by photochemical reaction to produce hydroxyl radicals.

Persistence/degradability
Bioaccumulative potential
VCI WGK: No products were found.
Ecotoxicity data
Persistence/degradability: No data available
Bioaccumulative potential: No data available
Other ecological information: No data available

Aquatic ecotoxicity/Conclusion/Summary:
DMF Daphnia magna (EC50)
Blue Gill (LC50)
Trout (LC50)
Minnows (LC50)
9600 to 13100 mg/l
6700 to 7500 mg/l
9000 to 13000 mg/l
10400 to 10800 mg/l

Other adverse effects: No known significant effects or critical hazards.

XIII. Disposal Considerations

Waste Disposal: The generation of waste should be avoided or minimized wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. These regulations apply to discharges of this substance.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.

II. Chemical Composition

Component Name: 2-HP Reagent also known as 2-Hydrazinopyridine dihydrochloride
Molecular formula: C₅H₇N₃.2HCl
Molecular weight: 181.1

Physical appearance: Clear, colorless aqueous liquid

2-HP Reagent is supplied as a 0.5 mM 2-hydrazinopyridine hydrochloride in MES (2-(N-morpholino)ethanesulfonic acid) buffer at pH 6.0.

### III. Hazards Identification

**OSHA/HSC Status:** While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200) at concentrations <1%, this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.

**OSHA Hazard:** Irritant

**HMIS Rating (Scale 0-4):** Health = 2 Fire =1 Reactivity = 0

NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.

### A. Emergency Overview:

**Information Pertaining To Particular Dangers for Man and Environment:** This reagent is not considered hazardous when recommend instructions are used. No known significant effects or critical hazards. Avoid prolonged contact with eyes, skin and clothing. Always use appropriate personal protective equipment.

**Physical Appearance:** Clear, colorless aqueous liquid

### B. Potential Health Effects:

**Acute Eye:**
Direct contact may cause irritation with redness

**Acute Skin:**
Direct contact may cause skin irritation with redness.

**Acute Inhalation:**
Acute and chronic exposure may cause irritation of the mucous membranes. Symptoms may include tightness and difficulty breathing.

**Acute Ingestion:**
Acute exposure may cause gastrointestinal irritation to the mouth and stomach.

### IV. First Aid Measures

**First Aid Measures for Accidental Exposure:**

**Eye Exposure:**
In case of contact with eyes, immediately flush eyes with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating eye lids.

**Skin Exposure:**
In case of skin contact, wash affected areas with soap and water and flush the area with copious amounts of water. Remove contaminated clothing.
Material Safety Data Sheet

Inhalation Exposure:
In inhaled, move to fresh air. If not breathing, administer artificial respiration. If breathing is difficult, give oxygen or artificial respiration by qualified personnel.

Ingestion Exposure:
If swallowed, rinse mouth out with water provided person is conscious. Never give fluids or induce vomiting if the victim is unconscious or having convulsions.

V. Fire Fighting Measures

Fire Hazard Data:

**Fire:** This product is not considered to be a fire hazard.

**Auto-ignition:** Unknown

**Flash Point:** Unknown

**Flammability Limits (vol/vol%):** Unknown

**Lower:** Unknown

**Upper:** Unknown

**Extinguishing Media:** Use extinguishing media appropriate for surrounding fire

**Special Fire Fighting Procedures:** Use extinguishing media appropriate for surrounding fire such as water spray, carbon dioxide, dry powder. Wear full protective clothing and NIOSH-approved self-contained breathing apparatus. Avoid inhalation of material or combustion by-products.

**Unusual Fire and Explosion Hazards:** None

VI. Accidental Release Measures

Cleanup and Disposal of Spill:

Use lab personal protective equipment such as gloves, lab coat, goggles and self-contained breathing apparatus. Wipe spills with absorbent wipes and discard any product, residue, disposable container or liner in full compliance with national or international regulations. Avoid raising dust. Ventilate area and wash spill site after material pickup is complete.

VII. Handling and Storage

**Handling/Storage:**

Do not get into eyes, skin or clothing. Handle wearing gloves. Store material refrigerated and in the dark. Keep container tightly sealed at 2-8°C.

VIII. Exposure Controls / Personal Protection

**Exposure Guidelines:**

Synonym: Succinimidyl formylbenzoate,S-4FB, (succinimidyl-4-formyl benzoate)

For Product Information/Emergency Phone Number:

Emergency Telephone ChemTrec:
II. Chemical Composition

Component Name: S-4FB  
Molecular formula: C_{12}H_{9}NO_{5}^{+}  
Molecular weight: 247.2  
CAS number: Custom synthesized compound. No CAS Number.  
Physical appearance: S-4FB is supplied as white solid.

III. Hazards Identification

OSHA/HSC Status: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.

Emergency Overview and Health Hazards:

NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.

NFPA Rating (Scale 0-4): Health = unknown  Fire = unknown  Reactivity = unknown
HMIS Rating (Scale 0-4): Health = unknown  Fire = unknown  Reactivity = unknown

A. Emergency Overview:

Information Pertaining To Particular Dangers for Man and Environment: This reagent is not considered hazardous when recommend instructions are used. No known significant effects or critical hazards. Avoid prolonged contact with eyes, skin and clothing. Always use appropriate personal protective equipment.

Physical Appearance: Off-white dry residue that is clear when resuspended in an appropriate solvent.

B. Potential Health Effects:

Acute Eye: Unknown. Avoid contact or exposure to eyes.
Acute Skin: Unknown. Avoid contact or exposure to skin.
Acute Inhalation: Unknown. Avoid contact or exposure to skin.
**Material Safety Data Sheet**

**Acute ingestion:** Unknown. Avoid ingestion.

### IV. First Aid Measures

**First Aid Measures for Accidental Exposure:**

**Eye Exposure:**
In case of contact with eyes, immediately flush eyes with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating eye lids.

**Skin Exposure:**
In case of skin contact, wash affected areas with soap and water and flush the area with copious amounts of water. Remove contaminated clothing.

**Inhalation Exposure:**
In inhaled, move to fresh air. If not breathing, administer artificial respiration. If breathing is difficult, give oxygen or artificial respiration by qualified personnel.

**Ingestion Exposure:**
If swallowed, rinse mouth out with water provided person is conscious. Never give fluids or induce vomiting if the victim is unconscious or having convulsions.

### V. Fire Fighting Measures

**Fire Hazard Data:**

- **Fire:** This product is not considered to be a fire hazard.
- **Auto-ignition:** Unknown
- **Flash Point:** Unknown
- **Flammability Limits (vol/vol%):** Unknown
- **Lower:** Unknown
- **Upper:** Unknown

**Extinguishing Media:** Use extinguishing media appropriate for surrounding fire

**Special Fire Fighting Procedures:** Use extinguishing media appropriate for surrounding fire such as water spray, carbon dioxide, dry powder. Wear full protective clothing and NIOSH-approved self-contained breathing apparatus. Avoid inhalation of material or combustion by-products.

**Unusual Fire and Explosion Hazards:** None

### VI. Accidental Release Measures

**Cleanup and Disposal of Spill:**

Use lab personal protective equipment such as gloves, lab coat, goggles and self-contained breathing apparatus. Wipe spills with absorbent wipes and discard any product, residue, disposable container or liner in full compliance with national or international regulations. Avoid raising dust. Ventilate area and wash spill site after material pickup is complete.
VII. Handling and Storage

Handling/Storage:

Do not breathe dust. Do not get into eyes, skin or clothing. Avoid prolonged or repeated exposure. Handle wearing gloves. Store material dry and keep refrigerated. Keep container tightly sealed in re-sealable aluminum pouch containing desiccant at 2-8°C.

VIII. Exposure Controls / Personal Protection

Exposure Guidelines:

<table>
<thead>
<tr>
<th>Ingredient Name</th>
<th>ACGIH</th>

<th>OSHA-PELS</th>
</tr>
</thead>
<tbody>
<tr>
<td>S-4FB</td>
<td>No occupational limits established</td>
<td>No occupational limits established</td>
<td>No occupational limits established</td>
</tr>
</tbody>
</table>

Engineering Controls:
Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the MSDS. General room ventilation is satisfactory under anticipated use conditions.
Respiratory Protection:
Not required under anticipated use conditions.

Eye / Face Protection:
Wear appropriate safety glasses with side shields or chemical goggles as described by OSHA’s eye and face protection regulations in 29CFR 1910.133 or European Standard EN166.

Skin Protection:
Wear chemical resistant gloves (such as latex or neoprene) and protective clothing to prevent skin contact.

IX. Physical and Chemical Properties

Component: S-4FB
Physical Appearance: White powder
Percent Purity: >90%
Boiling Point: Not available
Melting Point: Not available
Specific gravity: Not available
Freezing Point: Not Available
Vapor pressure: Not available
Vapor density: Not available
Solubility: soluble in aqueous as well as DMF and DMSO solvents
Evaporation rate: Not available
X. Stability and Reactivity

Chemical Stability: This compound is considered stable.
Conditions to Avoid: Susceptible to aqueous hydrolysis, avoid exposure to aqueous solutions before use.
Materials/Chemicals to Be Avoided: Aromatic aldehydes decompose on exposure to reducing agents
Hazardous Decomposition Products: Carbon monoxide, carbon dioxide in case of fire. Under normal conditions of storage and use, hazardous decomposition products should not be produced.
Hazardous Polymerization: Under normal conditions of storage and use, polymerization products should not be produced.

XI. Toxicological Information

United States

Acute toxicity/Conclusion/Summary: To the best of our knowledge, the toxicological properties of this product have not been thoroughly investigated.
Chronic toxicity/Conclusion/Summary: Not available.
Carcinogenicity/Conclusion/Summary: Not available.
Mutagenicity/Conclusion/Summary: Not available.
Teratogenicity/Conclusion/Summary: Not available.
Reproductive toxicity/Summary: Not available

Europe

Chronic effects: No known significant effects or critical hazards.
Carcinogenicity: No known significant effects or critical hazards.
Mutagenicity: No known significant effects or critical hazards.
Teratogenicity: No known significant effects or critical hazards.
Developmental effects: No known significant effects or critical hazards.
Fertility effects: No known significant effects or critical hazards.

XII. Ecological Information

Environmental effects: Not available.
Aquatic ecotoxicity/Conclusion/Summary: Not available.
Other adverse effects: Not available.

XIII. Disposal Considerations

Waste Disposal: The generation of waste should be avoided or minimized wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSITION.
Material Safety Data Sheet

CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.

XIV. Transportation Information

II. Chemical Composition

Component Name: Spin Column (Brown Cap)
Component Number: A-9202-001-18
Physical appearance: liquid slurry gel

Chemical composition:

Spin Column (Brown Cap) contains a polymeric chromatography resin equilibrated in a sodium phosphate-buffered saline solution (pH 6.0).

III. Hazards Identification
OSHA/HSC Status: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.

The preparation is not classified as dangerous according to Directive 1999/45/EC and its amendments.

Major Health Hazards: Respiratory tract irritation. Skin and eye irritation.

Physical Hazards: None

In accordance with 29 CFR 1910.1200 reagents this product contains less than 1% hazardous chemicals and less than 0.1% carcinogenic chemicals.

Emergency Overview and Health Hazards:

NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.

HMIS Rating (Scale 0-4): Health = 1  Fire = 1  Reactivity = 0

A. Emergency Overview:

Information Pertaining To Particular Dangers for Man and Environment: This reagent is not considered hazardous when recommend instructions are used. No known significant effects or critical hazards. Avoid prolonged contact with eyes, skin and clothing. Always use appropriate personal protective equipment.

Physical Appearance: Clear, colorless aqueous liquid

B. Potential Health Effects:

Acute Eye:
Direct contact may cause irritation with redness

Acute Skin:
Direct contact may cause skin irritation with redness.

Acute Inhalation:
Acute and chronic exposure may cause irritation of the mucous membranes. Symptoms may include tightness and difficulty breathing.

Acute Ingestion:
Acute exposure may cause gastrointestinal irritation to the mouth and stomach.

IV. First Aid Measures
Material Safety Data Sheet

First Aid Measures for Accidental Exposure:

Eye Exposure:
In case of contact with eyes, immediately flush eyes with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating eye lids.

Skin Exposure:
In case of skin contact, wash affected areas with soap and water and flush the area with copious amounts of water. Remove contaminated clothing.

Inhalation Exposure:
In inhaled, move to fresh air. If not breathing, administer artificial respiration. If breathing is difficult, give oxygen or artificial respiration by qualified personnel.

Ingestion Exposure:
If swallowed, rinse mouth out with water provided person is conscious. Never give fluids or induce vomiting if the victim is unconscious or having convulsions.

V. Fire Fighting Measures

Fire Hazard Data:

Fire: This product is not considered to be a fire hazard.
Auto-ignition: Unknown
Flash Point: Unknown
Flammability Limits (vol/vol%): Unknown
Lower: Unknown
Upper: Unknown

Extinguishing Media: Use extinguishing media appropriate for surrounding fire

Special Fire Fighting Procedures: Use extinguishing media appropriate for surrounding fire such as water spray, carbon dioxide, dry powder. Wear full protective clothing and NIOSH-approved self-contained breathing apparatus. Avoid inhalation of material or combustion by-products.

Unusual Fire and Explosion Hazards: In a fire or if heated, a pressure increase will occur and the container may burst.

VI. Accidental Release Measures

Cleanup and Disposal of Spill:

Use lab personal protective equipment such as gloves, lab coat, goggles and self-contained breathing apparatus. Wipe spills with absorbent wipes and discard any product, residue, disposable container or liner in full compliance with national or international regulations. Avoid raising dust. Ventilate area and wash spill site after material pickup is complete.

VII. Handling and Storage
Handling/Storage:
Do not get into eyes, skin or clothing. Handle wearing gloves. Store material refrigerated. Keep container tightly sealed at 2-8°C.

Respiratory Protection:
Not required under anticipated use conditions.

Eye / Face Protection:
Wear appropriate safety glasses with side shields or chemical goggles as described by OSHA's eye and face protection regulations in 29CFR 1910.133 or European Standard EN166.

Skin Protection:
Wear chemical resistant gloves (such as latex or neoprene) and protective clothing to prevent skin contact.

IX. Physical and Chemical Properties

Component: Spin Column (Brown Cap)
Physical Appearance: White gel slurry in a sealed plastic housing
Percent Purity: Not available
Boiling Point: Not available
Melting Point: Not available
Specific gravity: Not available
Freezing Point: Not Available
Vapor pressure: Not available
Vapor density: Not available
Solubility: Easily dispersible in aqueous solutions
Evaporation rate: Not available
pH: 6.0
**X. Stability and Reactivity**

**Chemical Stability:** Stable under recommended use conditions.

**Conditions to Avoid:** Avoid exposure to lead and copper.

**Hazardous Decomposition Products:** Phosphorus oxides may form when heated to decomposition. Under normal conditions of storage and use, hazardous decomposition products should not be produced.

**Hazardous Polymerization:** Under normal conditions of storage and use, polymerization products should not be produced.

**XI. Toxicological Information**

**United States**

**Acute toxicity/Conclusion/Summary:** To the best of our knowledge, the toxicological properties of this product have not been thoroughly investigated.

**Chronic toxicity/Conclusion/Summary:** Not available.

**Carcinogenicity/Conclusion/Summary:** Not available.

**Mutagenicity/Conclusion/Summary:** Not available.

**Teratogenicity/Conclusion/Summary:** Not available.

**Reproductive toxicity/Summary:** Not available

**Europe**

**Chronic effects:** No known significant effects or critical hazards.

**Carcinogenicity:** No known significant effects or critical hazards.

**Mutagenicity:** No known significant effects or critical hazards.

**Teratogenicity:** No known significant effects or critical hazards.

**Developmental effects:** No known significant effects or critical hazards.

**Fertility effects:** No known significant effects or critical hazards.

**XII. Ecological Information**

**Environmental effects:** No known significant effects or critical hazards. Leaches through the soil or sediment at a moderate rate. Accumulates very little in bodies of living organisms.

**Aquatic ecotoxicity/Conclusion/Summary:** None known.

**Other adverse effects:** No known significant effects or critical hazards.

**XIII. Disposal Considerations**

**Waste Disposal:** The generation of waste should be avoided or minimized wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal
Material Safety Data Sheet

of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. These regulations apply to discharges of this substance.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 91/689/EEC.
